

Sullivan Construction's Rob Johnstone Attains LEED AP Accreditation

Bedford, NH – Rob Johnstone, has become the third Sullivan Construction Inc. employee to attain LEED AP accreditation. Johnstone, a Project Manager and seventeen year construction veteran, recently passed the Green Building Certification Institute's administered LEED Accredited Professional Exam. The exam validates that the individual possesses the understanding of green building practices and principles and is familiar with LEED requirements, resources, and processes.

LEED was created to promote environmentally responsible building practices which focus on the reduction of operating costs through optimal energy use, the reduction of greenhouse gas emissions through a reduction of fossil fuel dependence, and providing a safe, healthful facility.

Some of Johnstone's most recent projects include CVS Retail Development, Augusta, ME, Grossman's Marketplace on Morrissey, Dorchester, MA, 1069 Broadway Retail Development Saugus, MA, and the Kendall Hotel in Cambridge, MA

Sullivan Construction Inc. a 39 year old Design\Build and Construction Management company specializing in GREEN construction practices and is active throughout the Northeast in Healthcare, Corporate, Medical, Hospitality and Retail construction and renovation.
