

Make Way for the New Indian Brook Medical Office Building

Dover, NH – John B. Sullivan Jr. Corp., of NH, Inc., Construction Managers, in Bedford, NH has been contracted by Summit Land Development Corp. for the construction of the new 108,000 SF Indian Brook Medical Office Building at 10 Members Way in Dover, NH.

The four-story, brick veneer structure, designed by Berard-Martel Architects of Bedford, NH, will have a lower level for vehicular parking.

After an August, 2007 groundbreaking, the Sullivan team, led by Project Manager Kevin Morse and Site Supervisor Roger McClure, has completed the site work and the building's foundation. The entire building, expected to be completed by August 2008, will be leased to Wentworth-Douglass Hospital of Dover, NH.

Family Care of Farmington, NH Complete

Farmington, NH – John B. Sullivan Jr., Corp of NH, together along with JSA Architects, recently completed a 1300 sq ft addition to Family Care of Farmington, NH. Completed in 90 days, the annex, which added space for three new exam rooms, two doctors' offices, and a new nurses' station, was constructed with minimal impact upon employees and clients, enabling the facility to be fully operational.

The Sullivan team was responsible for site work, construction of two (2) one-story additions, and utility installation for the Family Care of Farmington, a satellite of Frisbie Memorial Hospital, Rochester, NH.

Per Melissa Mabey, Office Manager, "The J.B. Sullivan staff met every challenge with an exceptional can-do attitude.... Team members demonstrated outstanding professionalism throughout this project, and their ability to work cooperatively with my staff and the day to day care of patients resulted in a satisfied customer."

The John B. Sullivan, Jr. Corp of NH, a 38 year old Design/Build and Construction Management company, is active throughout the Northeast in Corporate, Healthcare, Medical, Hospitality and Retail construction and renovation.

New Corporate Home For Eyesight Ophthalmic Services, Inc.

Portsmouth, NH – The Kane Company recently engaged John B. Sullivan, Jr. Corp. of NH for the 16,500 sq. ft. fit-up of the new corporate home of Eyesight Ophthalmic Services, Inc. at 155 Borthwick Avenue in Portsmouth. The Kane Company was the leasing broker and represented the building owner, Millennium Borthwick LLC.

Working in conjunction with Hallor Associates of Wellesley, MA and Katz Design, the Kane and Sullivan teams were able to complete the interior renovations within just four months.

“As the day approached when we would move in to our new office in Portsmouth, my anxiety decreased and my sense of pride and fulfillment increased. Now that we’re in our new office, I realize that it was all worth it. The teams’ commitment to making this project a dream-come-true was evident from day one, backed up by their proven capabilities and professionalism” states Dr. Richard Chace, Managing Partner.

For Eyesight Ophthalmic Services, Inc., the scope of the fit up work included the complete build out of the new home office in a fully occupied building, including exam rooms, extensive high-end millwork and appointments, and electrical utility installation.

Indian Brook Office Building, Dover, NH

Dover, NH – Continuing their twelve year relationship, Summit Land Development, hired JB Sullivan Construction Corp, Bedford, NH for the design\build construction of the shell of the new 108,000 sq ft Indian Brook Medical Office Building at 10 Members Way in Dover, NH. The structure, which was developed for Wentworth-Douglass Hospital, was constructed in a nine month time frame.

The five story, brick veneer, EIFS clad structure with suspended canopied front entrance was designed by Berard-Martel Architects of Bedford. T.F. Moran of Bedford, NH was responsible for structural engineering. The completely handicap accessible building features four floors of office space, each with 21,580 sq., ft of space, an underground parking garage, two four-stop elevators, and parking for 490 vehicles.

Led by Project Manager Kevin Morse and Site Supervisor Kevin Weyant, the Sullivan team, under very adverse winter and spring weather conditions, was responsible for the following scope of work for this year long project: preliminary site demolition/clean up, building construction, utility and HVAC installation, site work that included construction of retaining walls, parking lots and sidewalks and landscaping.

The entire building will be leased by Wentworth-Douglass Hospital of Dover, NH. With the completion of the shell, the Sullivan team has won the Wentworth-Douglass contract to be responsible for the building's tenant improvements that will include interior architectural millwork, residential cabinetry, flooring, painting and wall coverings, window treatments, and fire protection specialties.

White Mountain Medical Center, Wakefield, NH

Wakefield, NH – JB Sullivan Construction Corp. Bedford, NH, working in conjunction with JSA Architects of Portsmouth, NH, is on schedule for in its construction of the White Mountain Medical Center located in Wakefield, NH. When completed, the medical office building will serve as a satellite outpatient facility for Frisbie Memorial Hospital, Rochester, NH.

With the completion of the underslab plumbing and electrical work and the erection of the structural steel framework, the Sullivan team, under Project Manager John McCarthy and Site Supervisor, Brian Murphy, is currently framing and sheathing the exterior walls of the two story, 13,300 sq. ft. structure. When complete, the completely handicap accessible facility will have 11 exam rooms, four treatment rooms, a wellness room, hydraulic passenger elevator, and an emergency generator.

JB Sullivan Construction Corp, a 38 year old Design/Build and Construction Management company, is a member of the United States Green Building Council and is active throughout the Northeast in Healthcare, Corporate, Hospitality and Retail construction and renovation. For more information regarding JB Sullivan Construction, Inc, please contact Tom Sullivan at 603-647-1777 or email tom@jbsullivan.com.

MIT Bldg E40 #07178

Cambridge, MA – In time for the beginning of the new fall semester, Design-Build Contractors, Sullivan Construction Inc. of Bedford, NH, completed the renovation and reconfiguration of second floor offices for MIT Bldg. E40 at 1 Amherst St., Cambridge, MA.

Working with Project Architect Ganister Fields of South Hamilton, MA, the Sullivan team, under project Manager Rich Murphy and Site Supervisor, John Martins, completed the renovation project in four weeks. Throughout the demolition and renovation, the construction team had to be mindful of the fully operational office environment that was adjacent to the construction area.

The Sullivan Construction Inc. a 38 year old Design/Build and Construction Management Company, is active throughout the Northeast in Corporate, Retail, Healthcare, Medical, and Hospitality construction and renovation. CENTRIX BANK, DOVER, NH

Dover, NH – Working once again with Summit Land Development of Dover, NH and the architectural firm of Berard Martel of Bedford, NH, Sullivan Construction Inc. has been chosen to construct an 11,000 sq. ft. brick-faced mixed use building at the junction of Central Ave and Fifth St. in Dover, NH. When complete, the first story of the building will house a new branch of Centrix Bank, while the second and third stories will be luxury rental apartments.

The scope of work will include the fabrication of the brick-faced, steel reinforced, three story shell and interior tenant fit-up. The Centrix Bank area will feature energy efficient store front windows and cherry woodwork and will have five offices, three work stations, a conference room and an employee break area. On-site customer parking and a teller/ATM drive through will also be available.

Sullivan Construction will also be responsible for installation of underground utilities, plumbing, electrical, HVAC, security and sprinkler systems.

Sullivan Construction Inc. a 38 year old Design/Build and Construction Management company, is active throughout the Northeast in Retail, Healthcare, Medical, Corporate, and Hospitality construction and renovation. New Home for Sullivan Construction Inc.

Bedford, NH – Sullivan Construction Inc has moved into its new corporate headquarters at 258 South River Road, Bedford, NH. The Sullivan team, working with Berard-Martel Architecture and the Jordan Institute has renovated the former Nationwide Building and is pursuing Platinum Level LEED Certification for the project.

To accomplish this certification level, Sullivan crews utilized the following GREEN CONSTRUCTION techniques:

- Reducing lighting power density to 25% below standard.
- Utilizing innovative wastewater technologies
- Diverting 95% of construction waste from the landfill.
- Installing energy efficient windows that conformed with the building's original architecture
- Using Energy Star eligible equipment and appliances.
- Providing storage and collection for recyclables.
- Utilizing regionally manufactured materials made from certified wood with recycled materials

The building's Green Design demonstrates a commitment to the environment by the entire design, engineering and building teams to create a building that is a healthier and more productive place to work. It will be less costly to operate and will reduce the environmental footprint.

Sullivan Construction Inc, 38 year old Design\Build and Construction Management Company, is active throughout the Northeast in Corporate, Healthcare, Retail and Hospitality construction and renovation. Melrose-Wakefield Hospital

Melrose, MA – In conjunction with Melrose-Wakefield Hospital, Melrose, MA, Sullivan Construction has completed the renovation of a fourth floor suite for Dr. Matthew Brown. The office fit up, which created a new office and exam room, occurred during building occupancy and required ICRA Safety Operations with full dust free containment with HEPA filtering, included the demolition of the existing office area and the reconstruction of walls, ceilings, cabinetry, and flooring along with the installation of new electrical and plumbing systems.

Under site supervisor, Jim Donahue, the Sullivan team, was able to complete the transformation in under three weeks with minimal disruption to adjacent departments and offices while working over an Operating Room and Sterile Prep Rooms.
